

Prepare the box spring before installing the BedSok® box spring cover: remove all protruding nails, staples, and any sharp edges. Plastic brackets with rounded edges are fine but may be visible once BedSok® box spring cover is installed.

<p>1. Place the seam of the BedSok® box spring cover at the center head of the bed.</p>	<p>2. Stretch the BedSok® box spring cover around the first corner following the corner marker.</p>	<p>3. Moving diagonally, stretch the BedSok® box spring cover around the second corner.</p>
<p>4. Then stretch the BedSok® box spring cover around the third corner.</p>	<p>5. Finish by stretching the BedSok® box spring cover around the fourth corner.</p>	<p>6. Distribute the BedSok® box spring cover evenly over and underneath the box spring.</p>

For a king mattress, one BedSok® box spring cover can be placed around two twin-size box springs.
